Version	District	Date
V0.2	London West	31/03/2023

1. Document Purpose

This document is intended to be used as a reference guide when checking existing course restrictions. This document is maintained as the master document for course restrictions which may also be included in the course pack for each course.

2. Document Scope

This document summarises the Course Restrictions in place within London West District for both Type A and Type B courses.

For each day (day type), there are 3 racing periods, Morning – up to 12 Noon, Afternoon – from 12 Noon until 5pm, and Evening – from 5pm.

Restrictions may apply to the whole day or to individual time periods within the day. Restrictions may be in place which limit when racing may take place within an individual time period.

Unless otherwise specified, events on Bank Holidays should use the restrictions in place for a Sunday.

Current courses with No Restrictions in place are listed at the end of this document. Where a course is not listed it is either a new course and has not been included or was not in use (retired) at the time of the most recent revision of this document.
